Fiscal Year 2010 *First Quarter Financial Results*

December 21, 2009

Forward-Looking Statement

This presentation contains forward-looking statements, including those regarding our anticipated financial results for our first fiscal quarter, our ability to generate new business, the state of the end-market environment, our focus on cost, quality and delivery for our valuable customers, the improvement in our financial results for our second fiscal quarter and for fiscal year 2010 overall, the effect of seasonality on the financial results for our second fiscal quarter, and our currently expected second quarter fiscal year 2010 net revenue, core operating income, core and GAAP earnings per share results and the components thereof. The statements in this presentation are based on current expectations, forecasts and assumptions involving risks and uncertainties that could cause actual outcomes and results to differ materially. These risks and uncertainties include, but are not limited to: our determination as we finalize our financial results for our first fiscal quarter that our financial results and conditions differ from our current preliminary unaudited numbers set forth herein; adverse changes in the demand, or expected demand, of our customers; adverse changes in current macro-economic conditions, both in the U.S. and internationally; our financial performance during and after the current economic conditions; our ability to maintain and improve costs, quality and delivery for our customers; risks and costs inherent in litigation, including any pending or future litigation relating to our past stock option grants, the restatement of our financial statements as a result of the evaluation of our historical stock option practices or any declines on the price of our stock; whether our realignment of our capacity will adversely affect our cost structure, ability to service customers and labor relations; our ability to successfully address the challenges associated with integrating our acquisition of Green Point; our ability to take advantage of perceived benefits of offering customers vertically integrated services; changes in technology; competition; anticipated growth for us and our industry that may not occur; managing rapid growth; managing rapid declines in customer demand that may occur; our ability to successfully consummate acquisitions; managing the integration of businesses we acquire; risks associated with international sales and operations; retaining key personnel; our dependence on a limited number of large customers; business and competitive factors generally affecting the electronic manufacturing services industry, our customers and our business; other factors that we may not have currently identified or quantified; and other risks, relevant factors and uncertainties identified in our Annual Report on Form 10-K for the fiscal year ended August 31, 2009, subsequent Reports on Form 10-Q and Form 8-K and our other securities filings. Jabil disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
